OLA	ı							
	Medical History							
Pulmonary resection	Medical Histor	ıy						
Hypertension								
Haemoptysis								
Cystic fibrosis	Υ							
Bronchial artery embolisation								
	Reported Term for the Adverse Event							
Throat pain								
Pruritus intermittent joint pain								
intermittent fever							Severity/Intensity	
increased Hemoptysis							MILD	
increased hemoptysis Hematuria								
common cold			'					
		20	0	2	0	40	1	
Study Day of Start of Adverse Event/Study Day of End of Adverse Event								
	Lab Test or Ex	xamination Name					1	
Urine Proteins						-		
Urine Leukocytes Urate					_			
Tumor Necrosis Factor					-			
Triglycerides				•				
Sweat Volume, Right			<u> </u>					
Sweat Volume, Left Sweat Chloride, Right								
Sweat Chloride, Left					-			
Squamous Epithelial Cells					-	•		
Spermatozoa Sodium								
Prothrombin Time								
Prothrombin Intl. Normalized Ratio								
Protein				<u> </u>		-		
Potassium						<u> </u>		
Platelets Phosphate								
рН					<u> </u>			
Neutrophils/Leukocytes				•		-		
Neutrophils			<u> </u>					
Myeloperoxidase Mucous Threads								
MPXI			_		A	A		
Monocytes/Leukocytes			<u> </u>	<u> </u>	<u> </u>			
Monocytes Lymphocytes/Leukocytes								
Lymphocytes								
Leukocytes			_		_	A		
Leukocyte Esterase				_				
LDL Cholesterol Lactate Dehydrogenase								
Interleukin 8					_		Defense Denne Indicator	
Interleukin 6				<u> </u>			Reference Range Indicator LOW	
Interferon Gamma Indirect Bilirubin							▲ NORMAL	
IL-1 BETA							HIGH	
Hepatitis C Virus Antibody								
Hemoglobin			<u> </u>		<u> </u>			
Hematocrit HDL Cholesterol								
Haptoglobin			A		_			
Glucose			_			A		
Glomerular Filtration Rate			_	<u> </u>	_			
Gamma Glutamyl Transferase Erythrocytes								
Ery. Mean Corpuscular Volume			_		A	A		
Ery. Mean Corpuscular HGB Concentration			<u> </u>	<u> </u>	<u> </u>	<u> </u>		
Ery. Mean Corpuscular Hemoglobin Eosinophils/Leukocytes								
Eosinophils								
Direct Bilirubin	A							
Creatinine					_			
Creatine Kinase Cholesterol								
Chloride			_			T		
Calprotectin	A					•		
Calcium Oxalate Crystals				A	<u> </u>			
Calcium C Reactive Protein								
Blood Urea Nitrogen					_	-		
Bilirubin				A	A	<u> </u>		
Basophils/Leukocytes Basophils								
Bacteria
